CONTENTS TO VOLUME 64

Vol. 64 No. 1 January 1994

D. D. DIONYSIOU, G. A. PAPADOPOULOS, E. N. SARRIS and P. G. TSIKOURAS / Newtonian Tidal Theory and PPN Metric Theory Variable G and Earthquakes, II 1

C. Z. ZHANG / A Note on the Physical Parameters of the Moon 31

T. TAKASHIMA / A Method of Evaluation of the Atmospheric Effect on the Emergent Radiation over the Infinite-Cliff 39

G. C. DAS and K. M. SEN / Double Layers and Collapsible Waves in Plasmas Expected in Interplanetary Space 47

J. KLAČKA / Dust Particle in the Solar Gravitational and Electromagnetic Fields 55

ABDEL AZIZ BAKRY, OSMAN M. KAMEL, and SALWA M. WAZIRY / The Construction of a Third Order Secular Analytical J–S–U–N Theory by Hori–Lie Technique 59

Letter to the Editor

J. KLAČKA / On the Stability of the Zodiacal Cloud 95

The 'KLUWER' LaTeX Style File: Instructions for Authors 99

Vol. 64 No. 2 February 1994

S. PARHI and G. S. LAKHINA / Shear Flow Instability near the Cusp Resonance in Magnetopause Boundary Layer 107

C. Z. ZHANG / The Martian Mean Moment-of-Inertia and the Size of the Mars' Core 117

J. KLAČKA / Interplanetary Dust Particles and Solar Radiation 125

Y. E. HELALI and H. M. BASURAH / Variations of Perturbations in Perigee Height with Eccentricity for Artificial Earth's Satellites Due to Air Drag 133

B. B. SANWAL, B. S. RAUTELA, MAHENDRA SINGH, and J. B. SRIVASTAVA / Spectrophotometric Study of the Comet P/Swift-Tuttle (1992t) 139

D. P. SINGH, U. P. SINGH, and R. P. SINGH / Limiting Wave Growth for Electron Cyclotron Waves 145

J. RAITALA / Crustal Tectonic Zone on Venus 155

P. CLARK, S. JOERG, and R. De HON / Searching the Sinus Amoris: Using Profiles of Geological Units, Impact and Volcanic Features to Characterize a Major Terrane Interface on the Moon 165

PHILIP J. STOOKE / The Geology of Amalthea 187

Earth, Moon, and Planets **64**: 305–306, 1994.

The 'KLUWER' LaTeX Style File: Instructions for Authors 199

Vol. 64 No. 3 March 1994

HARRY A. TAYLOR, JR. and PAUL A. CLOUTIER / Optical Searches for Venusian Lightning: Implications for Nightside Field and Plasma Relationships 201

S. YABUSHITA / Are Periodicities in Crater Formations and Mass Extinctions Related? 207

V. S. GEROYANNIS and F. N. VALVI / Application of a Global Polytropic Model to the Jupiter's System of Satellites: A Numerical Treatment 217

M. MARIE and M. B. EL-SHAARAWY / Rotational Distortion on the Surfaces of Jupiter and Saturn 227

KRZYSZTOF GOŹDZIEWSKI, ANDRZEJ J. MACIEJEWSKI, and PHILIP J. STOOKE / A Model of the Gravitational Field of Amalthea Part I: Derivation 243

MILAN BURŠA / Distortions of the Moon's Figure Due to the Earth 265

I. KAPIŠINSKÝ, V. FIGUSCH, A. HAJDUK, J. IVAN, and K. IŽDINSKÝ / Reanalysis of Four NASA Stratospheric Particles 273

SIEGFRIED FRANCK / Instability of a Reaction Zone at the Core-Mantle Boundary (CMB) 281

MILAN BURŠA / Testing Geopotential Models 293
